

Bad Design 1: Low Ceiling Obstruction

Description:

Construction walkway with a low hanging ceiling causing restricted movement.

Source of Photograph: Captured Picture

Place: Construction Site

Reasons why the design is bad:

- Low clearance.
- Unsafe movement.
- Poor accessibility.
- Risk of head injury.
- Materials block pathway.

Suggested Improvement:

- Increase clearance.
- Add warning signs.
- Keep pathway clear.
- Provide safe route.
- Improve planning.

Bad Design 2: Cleaning Machines Stored in Passage

Description:

Cleaning equipment stored in a common passage.

Source of Photograph: Captured Picture

Place: Building Corridor

Reasons why the design is bad:

- Blocks movement.
- Poor organization.
- Trip hazard.
- Emergency access reduced.
- Untidy appearance.

Suggested Improvement:

- Use storage room.
- Mark parking area.
- Keep exits clear.
- Organize equipment.
- Regular inspection.

Bad Design 3: Overflowing Dustbin

Description:

Overflowing bin with waste scattered around.

Source of Photograph: Captured Picture

Place: Outdoor Area

Reasons why the design is bad:

- Poor hygiene.
- Bad smell.
- Attracts animals.
- Littering.
- Health risk.

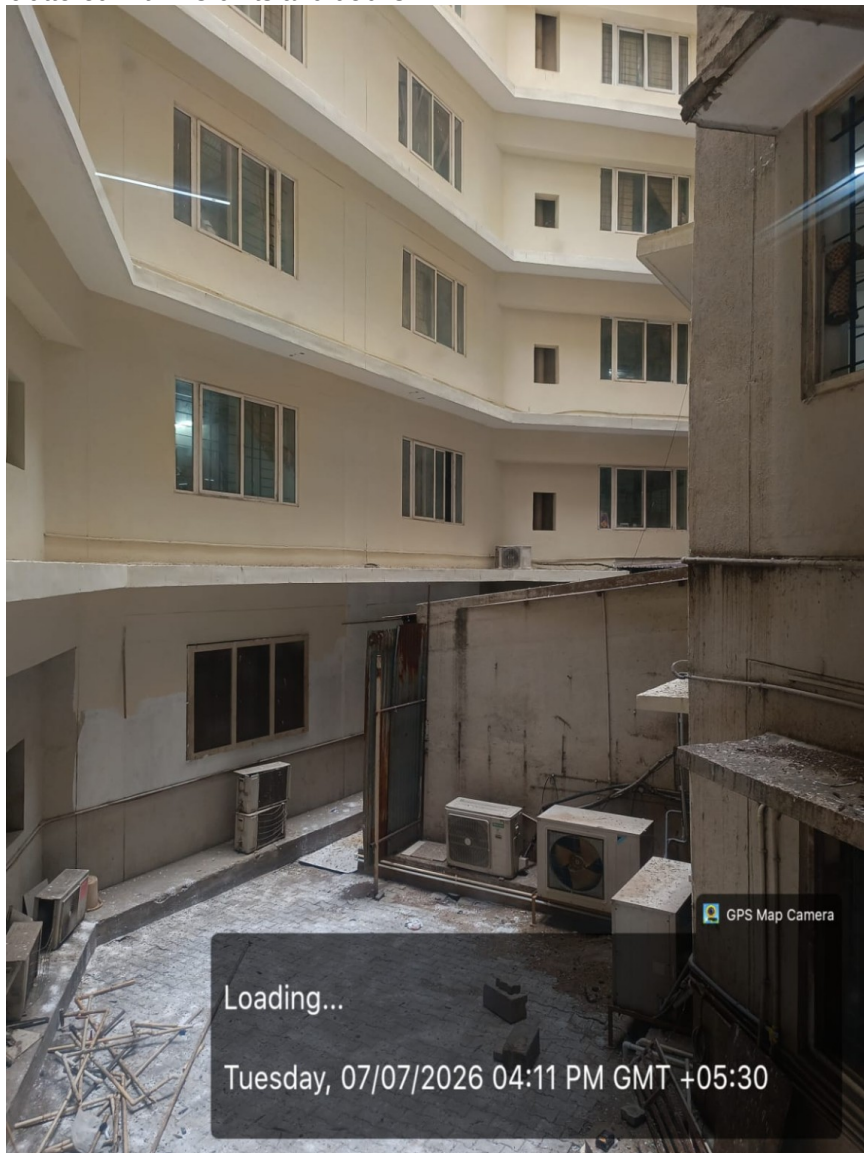

Suggested Improvement:

- Increase collection.
- Use larger bins.
- Close lid.
- Awareness.
- Routine cleaning.

Bad Design 4: Congested Service Yard

Description:

Service yard cluttered with AC units and debris.

Source of Photograph: Captured Picture

Place: Building Rear Yard

Reasons why the design is bad:

- Hard maintenance.
- Unsafe access.
- Poor ventilation.
- Clutter.
- Trip hazards.

Suggested Improvement:

- Organize equipment.
- Clear debris.
- Dedicated pathways.
- Routine maintenance.
- Improve layout.

Bad Design 5: Blank Information Display

Description:

LED display board is blank and provides no information.

Source of Photograph: Captured Picture

Place: Restaurant Entrance

Reasons why the design is bad:

- No guidance.
- Wasted display.
- Confuses visitors.
- Poor communication.
- Maintenance issue.

Suggested Improvement:

- Repair display.
- Show directions.
- Regular checks.
- Use readable text.
- Update information.
